

Hey Traders it's Casey here I have developed a simple to follow plan to get as many traders as possible trading million dollar accounts.

Check it out and see if this is something you think would be worth your efforts.

7 Figure Trading Journey:

To develop a plan for growing a trading account to seven figures starting with \$500, let's break down the steps and calculate the total time needed:

Step 1: Finding a Consistent Strategy (3% Per Month):

This is a 36% per year return- it seems slow but it's not, it is the path to great wealth.

You may be tempted to skip this part but don't do this part.

You can do this phase on a demo account but do not attempt to bypass this phase as it will cause you to go backwards and take even longer.

If you need a strategy there are hundreds to choose from <https://tradingstrategyguides.com>

Follow that and do at least 3% for three months.

Duration: 3 months

Step 2:Applying for a \$50K Prop Firm with \$500:

After trading successfully for 3 months you have the confidence and skills to attempt the prop firm test.

It will cost about \$500 to take the 50,000 test with <https://globalproptrader.com> This will be the only investment that you need to take.

If you continue the 3% a month this part will take a total of 3.5 months to pass the test.

I know it's slow but we are trying to build a sustainable income stream but when you look at the big picture, waiting 5 months to generate millions of revenue is worth the effort.

Gaining 10% to Pass the Prop Firm Test:

Duration: 3.5 Months

Step 3: Earn 6k in Revenue to upgrade to the million dollar prop firm.

Now with a 50k account and an average of 3% a month that would be \$1,500 per month.
It will take 4 months to earn \$6,000

The prop firm has a 90/10 split so you would need to actually earn \$6700 to be able to withdraw \$6,000.

This will take 4.5 months to earn the \$6,700 you need to buy the million dollar prop firm.

Duration 4.5 Months

Step 4: Pass the million dollar test and begin to become a million dollar trader.

Buy the Million dollar test at <https://globalproptrader.com> and pass that test and start trading for with a million dollar account.

If you earn 3% a month on the million dollar test.

It will take a total of 3.5 months to pass the test.

Duration 3.5 months

Total Duration 14.5 months

Summary:

7-figure trading journey with the steps provided, let's sum up the individual durations for each step:

1. Finding a Consistent Strategy (3% Per Month):

Duration: 3 months

2. Applying for and Passing a \$50K Prop Firm Test:

Duration: 3.5 months

3. Earning \$6,700 in Revenue with a \$50K Prop Firm Account:

Duration: 4.5 months

4. Passing the Million Dollar Prop Firm Test:

Duration: 3.5 months

Adding these together gives us the total duration:

3 months (strategy) + 3.5 months (first test) + 4.5 months (earning \$6,700) + 3.5 months (second test)

Total Duration = 14.5 months

Therefore, according to the plan, it would take a total of 14.5 months to go from a starting point of \$500 to trading with a million-dollar account in a prop firm, assuming all steps are successful and the monthly gain remains consistent at 3%.

I hope this is helpful to you, if you have any questions for feedback please let me know by visiting me on youtube at <https://www.youtube.com/@TradingStrategyGuides>

To your trading success.

Casey Stubbs
